OUR GOAL

The sky tells a **quiet story**: one of motion, stillness, and endless change. Aerial Whispers is our way of bringing that story into everyday space. The design of Aerial Whispers mirrors the **ever-changing shapes of clouds** as they gracefully drift, soften, and expand. Its tones, **gentle neutrals**, and **luminous accents** are chosen to calm, uplift, and inspire. This is a collection for those who love openness and design that breathes, drawing inspiration from the ever-changing sky.

DANCING CLOUDS

Light travels across the sky without boundaries, soft, slow, and full of wonder. Aerial Whispers reflects this openness, offering surfaces that invite the eye to rest and wander.

There is a rhythm to the sky that is both calm and constantly changing. Aerial Whispers follows that rhythm with patterns that suggest movement without noise. Whether in stillness or motion, it holds a quiet energy—like a breeze just before the rain, or the long pause after sunset. This makes it perfect for spaces that seek peace, clarity, and natural flow.

Manufacture System

SOLAR made carpet

VOXFLOOR® constructs its solar power generation system, utilizing clean energy for sustainable production.

An Environmental Product Declaration (EPD) tells the life cycle story of a product in a single, comprehensive report. The EPD provides information about a product's impact upon the environment, such as global warming potential, smog creation, ozone depletion and water pollution.

Administered by the Singapore Environment Council (SEC) since 1999, It is Singapore's leading environmental standard and certification mark with over 3800 unique products certified across 43 countries.

Credits Contribution to:

LEED (Leadership in Energy and Environmental Design) is the most widely used green building rating system in the world. LEED certification is a globally recognized symbol of sustainability achievement and leadership.

VOXFLOOR® tracks and reduces greenhouse gas emissions (ISO 14064), minimizes the carbon footprint of carpet tiles (ISO 14067), and achieves carbon neutrality through renewable energy and offsetting (ISO 14068-1).
